

Service Contract Company Information:

Administrator	Veritas Global Insurance Services INC
Insurer	AmTrust Financial (Technology Insurance Company)

The Veritas Global Protection Electric program is the industry’s first Vehicle Protection Plan created exclusively for electric and hybrid cars! This program has special component coverage for electric-specific components, such as the electric and hybrid battery, the electric generator, the electric vehicle control unit, and other electric and hybrid-only components. This program is unique in that it is designed exclusively for electric vehicles and covers nearly every electric vehicle on the market, including Tesla. Many competing programs that have come out recently just cover the battery—and that’s it. Since electric cars can be unique and have component lists that change model-to-model, this program truly is tailored for the electric vehicle. We have coverage available for electric vehicles up to 10 years old and up to 200,000 Kilometers on their odometer at the time of sale!

Coverage and Coverage Levels:

Veritas Electric Drivetrain

Coverage for vehicles up to 10 years old and up to 200k Kilometers on their odometer at time of sale.

Covers the essential electric drivetrain components—Electric or hybrid battery, electric or hybrid engine, electric drive motor, electric or hybrid transmission, electric or hybrid generator, motor controller, electric drive system or transmission, AC/DC converter and/or power inverter module, electric vehicle control unit (EVCU), electric power compressor, and the onboard charging module. Also covers NON-ELECTRIC powertrain components: Engine, transmission, drive axles, transfer case, and non-electric turbo and superchargers. Seals and gaskets are also covered when required in connection with the repair or replacement of a covered part.

Veritas Electric Drivetrain Deluxe

Coverage for vehicles up to 10 model years old and up to 160k Kilometers on their odometer at time of sale.

Covers Drivetrain components plus the cooling system, air conditioning system, power window motors and regulators, power door lock actuators, power trunk switch, power antenna motor, alternator, voltage regulator, heater fan, starter motor, starter solenoid, and starter drive.

Veritas Electric Preferred

Coverage for vehicles up to 7 model years old and up to 120k Kilometers on their odometer at time of sale.

Covers Drivetrain and Drivetrain Deluxe plus the brake system (excluding brakes, brake pads, and other items contained in “Section V. Exclusions”), the steering system, and suspension system.

Veritas Electric Premier

Coverage for vehicles up to 5 model years old and up to 80k Kilometers on their odometer at time of sale.

Covers nearly every mechanical component on the vehicle with the exception of those items contained in the exclusions section of the contract.
